## Commodore Announces Launch of New Computer Products Series at CES 2009

Friday January 9, 2009, 1:43 pm EST

LAS VEGAS, NV--(MARKET WIRE)--Jan 9, 2009 -- Commodore® (Other OTC:CDRL.PK - News) today announced the launch of an exciting new series of computer products at the Consumer Electronics Show 2009 in Las Vegas, and to allow visitors the chance to experience the new Commodore line of products.

The new series of netbook products were introduced at the Berlin IFA show in September 2008 to an overwhelming market response in Europe. Commodore will unveil its new line of 2009 products in the multimedia internet devices category at the CES 2009 show.

Commodore will introduce the F and J Series netbooks that both have 10.1-inch screens. The F-serie is unique designed with high quality covers and a keyboard that is about 85% of the size of a full keyboard, whilst the J-serie is more designed for mobile business users, have an additional superfast E-Sata USB port for friendlier data back-up transfer and includes and a near full size keyboard. Both machines are powered by Via C7 / C8 or Intel Atom processors. The netbook computers are about an inch thick, weighs about three pounds and shipped with Windows XP. It comes with 1 and 2 Gb internal memory, 160 GB hard disk, built-in Wi-Fi, Bluetooth and three USB ports for connecting to other multimedia devices for connecting to photos, video, music and HDD back-up. Optional is an external slim line optical drive and a HDD back-up device, special designed for the netbook product line. All series have direct connection to the CommodoreWorld portal ([www.commodoreworld.com](http://www.commodoreworld.com)) providing various content, such as digital entertainment, TV shows and actual news channels, accessed by a special hotkey on the netbook.

As a special product Commodore also developed the M-serie, a Mini-Netbook, designed for the worldwide One PC per Child Initiative. It comes in 2 models, the M-450R and M-400. Both models has a 7 inch LCD screen. The M-450R is built to run on Win XP or Win CE on RDC 800Mhz CPU with 512MB DDR, equipped with 4GB SSD (Solid State Drive) storage, WiFi, Web Cam, standard 80 keys keyboard and touchpad. The M-400 runs on Linux uses the Intel Xscale 366 Mhz CPU, 128MB memory with 1GB SSD, and comes equipped with WiFi, standard 80 Key-Keyboard and touchpad. The M-series is available in different colors.

Furthermore Commodore will show its upcoming line of Mobile Internet Devices including HSDPA, WiFi, and GRPS functionalities going with 4, 3 and 5-inch screens. Also its new line of GPS devices will be presented including full USA maps for road navigation as well as optional marine maps for easy to use boat navigation.

Mr. Ben van Wijhe, President and CEO of Commodore states "We're ecstatic launch our new line of Commodore netbooks and other products in USA. We are very eager to introduce to the market the new products and services exclusively developed for Commodore. The initial response from the market is very positive and retailers are willing to buy the new line of Commodore netbooks which continue the tradition of the famous Commodore C64."

Commodore has set up a showroom at the Suite 60333 at Mandalay Bay Hotel from January 8 to January 11. The products will be presented by Commodore's exclusive distributor network. Interested parties and buyers can visit our show room during the hours of 9 am to 5 pm at Mandalay Bay Hotel where our new range of products are on display. Please contact our sales office on 949 273 8288 for a personal invitation.
